

*Like you're there for your families,  
we're there for you.*

# OSHA

In Minnesota we experience the differences of the seasons as vividly as any place in the world. From the dead of winter to the promise of new life blooming in the spring. The maturing of life through the summer to the vibrant show of color in the crisp cool days of autumn, before we return to winter and our dreams of renewing the cycle. National statistics show that the funeral industry has seasonal cycles as well. From the busy winter, to the average spring and fall, to the lax days of summer, every year is different, but the national pattern can be predicted. Just as the pattern can be predicted, you can count on Kelco Supply Co. to remain your reliable partner all year round as we have for over 70 years.

In this issue we are focusing on OSHA. We have brought together a basic selection of the many required products that help you maintain a safe and OSHA compliant business. Whether you are in need of record keeping supplies, test kits, PPE's, cleaning and storage supplies, or disposal containers. We carry a full line of products for inclusion in your compliance program. Formaldehyde exposure is always a concern, and we often focus on ventilation and the handling of formaldehyde products, without considering the products themselves. Our Gold Series fluid line offers a full spectrum of indexes which allows embalmers flexible concentrations with limited formaldehyde exposure, and our low fuming Kelcavex 17/35 (page 3) was developed to provide minimal exposure and maximum protection.

Another of our featured products is our Trocar Sterilizing Kit (page 4). This kit contains Kelco Supply's own Trocar Sterilization Tube and Holder which is manufactured and assembled by our staff here in our Minnesota facility. The Trocar Sterilization Tube and Holder is the answer to the question of how to safely sanitize and store a sharp pointed trocar in the prep room.

I promise you that in the same way you help the families that call at the time of their greatest need I will be here to help you with your OSHA compliance or any funeral service needs. I devote a part of my time each week to reviewing funeral compliance issues and comparing them to our product line. In recent weeks we have all heard that the United States has reclassified formaldehyde as a known carcinogen. I am following this closely, and will keep our entire customer service team informed on how we can continue to meet your needs in these changing times. I am also personally available to answer any questions or concerns, or to visit with you about any need within your facility or operation.

I wish you a wonderful summer, and encourage you to enjoy your season in life.

Michael Bjerum, CFSP

### KELCAVEX® 17/35

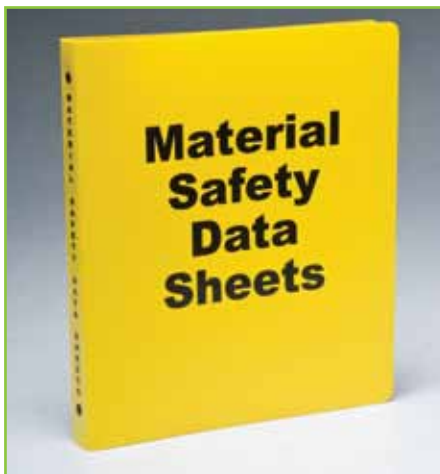

Modern chemistry answers the call for high level disinfection, sanitation and preservation in cavity treatment, while lowering the embalmer's exposure to regulated chemicals.

Kelcavex 17/35 uses a unique formulation that gives an immediate 17 index treatment with reduced fuming while maintaining a reactive index of 35 for potent and comprehensive cavity treatment.

Kelco Supply Company's chemists have utilized modern chemistry to provide the same predictable results our customers expect while reducing exposure to fuming chemicals. Lowered formaldehyde content, and NO glutaraldehyde or phenol assist operators in minimizing their exposure, and help maintain safe and comfortable working conditions.

Kelcavex 17/35 is one of the many tools Kelco Supply Co. offers to keep your funeral home safe, OSHA compliant, and professional in their care of the families they serve.

### MSDS BINDER

Yellow plastic 3-ring binder; ideal method of keeping all pertinent MSDS information in one convenient location; holds over 100 shts. 11.675" x 9.875" x 1". 517003

MSDS SHEETS FOR KELCO PRODUCTS AVAILABLE TO DOWNLOAD AT [WWW.KELCOSUPPLY.COM](http://WWW.KELCOSUPPLY.COM)

### EMBALMING REPORT BINDER/FORMS

Mauve plastic 3-ring binder; ideal method of keeping all pertinent Embalming Reports; holds over 200 sheets. 11.5"W x 11.5"H x 3"D.

Forms are an easy way to record pertinent information on each case. 8.5"W x 11"H, 3-holed drilled, double-sided.

841 3-Ring Binder  
8249 Binder & 200 Reports  
833 Reports, 100/pk

### FORMALDEHYDE VAPOR MONITOR

Can be used to monitor personal exposure or for monitoring work area. Designed for use in determining TWA, Action Level & STEL exposures; includes instruction sheet, monitor badge with clothing grip and mailer envelope to send in monitor for analysis and results. Results are generally available by phone within 48 hrs. of sample receipt; results can also be faxed.

508926

All orders on in-stock items will be shipped within 24 hours.

We appreciate your business. Our customer service representatives are happy to answer any questions you may have.

**TROCAR STERILIZING KIT**

Includes wall mount sterilization tube #510769, one gallon Medica 28® sterilizing fluid #552194, and a Trocar cleaning brush #477877.

565233

**MEDICA 28® REUSABLE COLD STERILIZING & DISINFECTING SOLUTION**

Non-staining, mild, pleasant fragrance dialdehyde (2.5% alkaline glutaraldehyde) solution to be used for high-level disinfection and sterilization. Activated by adding the contents of the activator vial to the gallon container; life of activated solution is 28 days. Spectrum of activity: bacteria: bacillus subtilis, clostridium sporogenes, staphylococcus aureus, salmonella choleraesuis, pseudomonas aeruginosa, mycobacterium tuberculosis; viruses: poliovirus, rhinovirus, cytomegalovirus, HIV-1, herpes simplex I & II and influenza. One Gallon.

552194

**WALL MOUNT STERILIZATION TRAY**

Stainless steel tray with hinged lid mounts permanently to wall in preparation room. Spigot with stopcock allows attachment of latex or vinyl tubing for draining and cleaning purposes. Holds all sizes of trocars and/or other preparation room instruments. 28"L x 4"D x 4"H; 5 qt. fluid capacity.

136336

**STERILIZATION TRAY & LID SET**

Stainless steel tray and cover sets are ideal for cleaning, sterilizing and storing longer instruments and equipment such as shorter length trocars, hypo-trocars, drainage tubes, latex or vinyl tubing, etc. The flat lids with recessed strap handles minimize space requirements and allow easy stacking.

404748 3.5 qt.; 20.75"L x 6.375"W x 2.5"H

404756 5.25 qt.; 20.75"L x 6.375"W x 4"H

**COUNTER TOP STERILIZATION TRAY**

Constructed from high-impact white PVC material. Lid detaches; holds all sizes of trocars and/or other preparation room instruments. 31"L x 5.5"D x 4"H; 6 qt. fluid capacity.

508896

**CAVICIDE® DISINFECTANT & DECONTAMINANT CLEANER**

Safe for use on any surface including instruments, equipment, tables, counters, etc.; use as a presoak and cleaner prior to sterilization; pour a small amount in with laundry soap to disinfect a wash load; will not stain fabrics; will not harm plastic, rubber, stainless steel, glass, tile, Formica®, etc. Does not contain glutaraldehyde, phenols or bleach.

- 547816 2 oz. Pump
- 547824 8 oz. Pump
- 547832 24 oz. Spray
- 547841 One Gallon

**MEDICA DC 10 DISINFECTANT**

Non-toxic; will not absorb through the skin and won't stain or damage materials/instruments. Can be used for immersion, as a surface spray or in an ultrasonic unit. Eliminates the need for a pre-cleaner. EPA registered; exceeds OSHA regulations. Designed for curing lights and lens covers, exam furniture, glasses, stainless steel, formica and plastics; use as a body wash agent at full-strength. Effective against bacteria such as staphylococcus aureus, salmonella choleraesuis, pseudomonas aeruginosa and klebsiella pneumoniae. Kills viruses: influenza A2/Hk, herpes simplex type II, and polio I virus. Kills microbacterium bovis BCG (tuberculosis), HIV-1 (AIDS).

- 552248 1 Qt. Pump Spray
- 552259 One Gallon

**EMPOWER FOAM DUAL ENZYMATIC DETERGENT**

No sterilization system can reliably penetrate the bioburden on soiled surgical instruments; thus the precleaning step is critical. Is excellent for dissolving blood, tissue, mucous and body fluids and preventing debris from drying on instruments immediately after a procedure. Convenient spray foam reduces splashing and messy spills. Spray on the foam to effectively cover the instruments, keeping them moist, prior to rinsing thoroughly. Low-foaming formula is ideal for use in automated machines. Contains 2 proteolytic enzymes for effective cleaning.

- 317086 24 oz. Spray
- 317074 One Gallon

**TYVEK® COVERALL**  
 Zipper; collar; elastic around wrists & ankles.  
 Available in sizes: S, M, L, XL, 2XL, 3XL, 4XL, 5XL.  
 532649

**TYVEK® APRON**  
 Sewn ties at waist, loop neck, 28" x 36".  
 One size fits all.  
 579536

**TYVEK® SHOE COVER**  
 Elastic top, vinyl soles. S/M, L/XL. 1/pair.  
 579551

**TYVEK® SHOE COVER**  
 Elastic top, Tyvek soles. S/M, L/XL. 1/pair.  
 532681

**TYVEK® COVERALL WITH HOOD & BOOTS**  
 Zipper; attached hood & boots; elastic around wrists.  
 Available in sizes: S, M, L, XL, 2XL, 3XL, 4XL, 5XL.  
 532614

**PROTECTIVE REMOVAL KIT**  
 Kelco's exclusive "Protective Removal Kit". Designed to be used during all removals. Packaged in clear poly bag, all items stay clean and fresh, ready to use. Includes: coverall, cap, shoe covers, mask, goggles, 3 pairs of gloves, 2 plastic sheets. One size fits all.  
 508659

**ASSISTANT PROTECTION KIT**  
 Kelco's exclusive Assistant Protection Kit is a uniquely designed kit - wonderful to have on hand at all pick-ups, or when additional assistants are helping during preparation. Includes: coverall, cap, shoe covers, mask, goggles, 2 pairs of gloves, identification tag, 2 caution labels, and infectious bag.  
 508527

**REVERSIBLE SCRUB TOP & PANTS**  
 Unisex. 50% Polyester - 50% Cotton. Top: V-neck; set-in sleeves; breast pocket inside and out.  
 Pants: drawstring waist; hip pocket inside and out.  
 Sizes: XS, S, M, L, XL, 2XL, 3XL  
 Available in five colors:

**TOPS**

- 205613 Emerald
- 205745 Raspberry
- 205238 Hunter
- 205516 Ciel Blue
- 205567 Navy

**PANTS**

- 205637 Emerald
- 205753 Raspberry
- 206814 Hunter
- 205559 Ciel Blue
- 205575 Navy

**UNISEX KNEE-LENGTH LAB COAT**

ASEP® Barrier Fabric. Front and sleeves are ASEP® Barrier Fabric; back is color-matched non-barrier polyester/cotton fabric. Concealed-flap snap closure provides greater fluid protection; overlapping stand-up collar with snap closure can be worn open or closed; left breast pocket; two lower patch pockets; side-slash openings to access pants pockets; 100% polyester knit cuffs; single vent; average length 44". Sizes: XS, S, M, L, XL, 2XL, 3XL. Available in two colors:

- 206717 Navy (Shown)
- 206725 White

**UNISEX KNEE-LENGTH LAB COAT**

White. 65% Polyester - 35% Cotton. Snap closure; lapel collar with snap closure can be worn open or closed; left breast pocket; two lower patch pockets; side-slash openings to access pants pockets; single vent; average length 42". Sizes: XS, S, M, L, XL, 2XL, 3XL.

<b>Female:</b>	4-6	8-10	12-14	16-18	20-22	24-26	28-30

**UNISPEC™ PROTECTIVE SPECTACLES**

Wrap-around protection with anti-fog coated, one-piece, optical-grade polycarbonate, 99.9% UV protection lens; clear frame. Design allows wearing over prescription glasses. Meets ANSI Z87.1 requirement for splash & impact protection.  
 508874

**DISPOSABLE SHIELD FACE PROTECTOR**

Full face splash protection; comfortable, optically clear Mylar® polyester, cost-effective, lightweight, anti-fog, fits over eyewear and nose/mouth protection masks, impenetrable polyurethane foam headband, sterilizable in cold solution. Elastic headband for retention fit.  
 508918

**VISOR FACE SHIELD**

Full face splash protection; durable material headgear with adjustable headband for proper fit; optically clear shield with ratchet adjustment attachment to visor; fits over eyewear and nose/mouth protection masks; shield is replaceable.  
 552208 Complete Unit Faceshield  
 552216 Replacement Shield

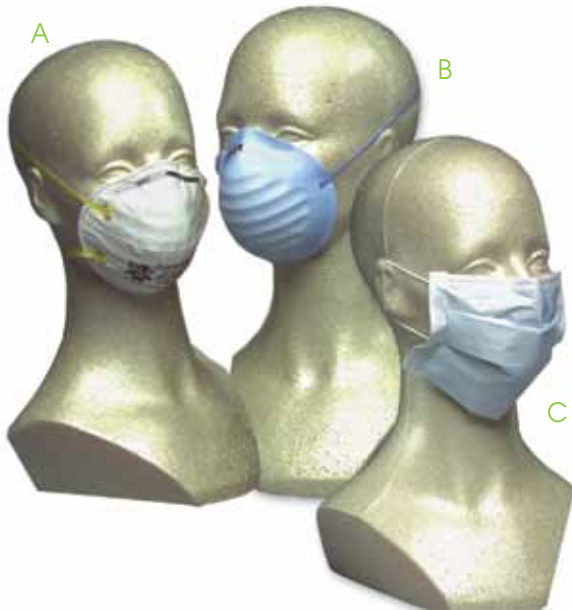

**DISPOSABLE APRONS**

Embossed 1.25 mil polypropylene; loop neck; two waist ties. 28" x 44"; mid-shin length; one size fits all. 100/box.  
 142034

All orders on in-stock items will be shipped within 24 hours.

We appreciate your business. Our customer service representatives are happy to answer any questions you may have.

**N95 PARTICULATE RESPIRATOR WITH MAGIC ARCH® & POSITIVE FACIAL LOCK®**

Designed to provide protection against dusts, fumes, microorganisms and non-oil containing mists. Uses the exclusive Magic Arch®/Positive Facial Lock "one-size-fits-all" design permitting the respirator to be "custom fit" to virtually any face. 35/pkg.

515183

**A. 3M DUST/MIST PARTICULATE FILTERING**

Protection against dust and mist particulate material. Flexible metal band at bridge of nose adjusts to enhance fit; two flat elastic bands secure mask to face. 20/box.

511978

**B. 3M ASEPTEX FLUID RESISTANT INFECTION CONTROL**

Provides greater than 96% bacterial filtration efficiency. Soft, lightweight, hypo-allergenic, highly breathable, non-fiberglass material; does not contain either natural rubber latex or dry natural rubber as components. Flexible metal band at bridge of nose to enhance fit; single elastic band secures mask to face. 50/box.

511994

**C. FACEMATE® ISOLATION**

Constructed of 100% polypropylene, light weight, fluid resistant, non-fiberglass, pleated, 3 micron filtration material with soft, hypo-allergenic liner. Exceeds 95% bacterial filtration efficiency. Flexible aluminum band over nose adjusts to enhance fit; ear loops secure mask to face. 50/box.

516848

**MOLDEX N95 PARTICULATE & ODOR RESPIRATOR**

Shell holds shape of mask and resists collapsing in heat and humidity. Ventex™ valve lets hot air out faster for easier and cooler breathing. Soft nose flange adds comfort. Softspun® lining increases comfort and durability. HandyStrap™ with buckle allows mask to hang around neck when not in use. Sorbent layer helps relieve nuisance odor from exposure to organic vapors. 10 per size.

356019 Medium/Large

356027 Small

**MSA COMFO CLASSIC® RECHARGEABLE RESPIRATOR**

Half-facepiece. Formaldehyde & organic vapor rechargeable respirator. SoftFeel® silicone construction on facepiece for a secure fit and exceptional wearer comfort. Cradle headband has two adjustable elastic straps; third adjustable elastic strap secures behind the neck with a hook closure. Your choice of either standard cartridges or P100 particulate filter (99.97% filter efficiency level effective against all airborne particulate material) cartridges. Cartridges sold separately.

279099 Large

22233 Standard Cartridges, 1/pr.

279087 Medium

22268 P100 Particulate Filter Cartridges, 1/pr.

279072 Small

**SHIELDMATE® WITH FACEMATE MASK**

Full face splash protection; mask is fluid resistant material with 3 micron filtration capacity; eye shield is low glare, anti-fog, distortion free, 7 mil polyester material permanently bonded to the mask; soft polyurethane foam at top of shield for comfort. Dual ear loop or dual tie retention fit.

517696 With Ear Loops, 25/box

**LOCKING WALL MOUNT ENCLOSURE, SHARPS CONTAINER & OPTIONAL GLOVE DISPENSER.**  
 Maintain safety, save counter space and keep your gloves easily accessible with the Locking Wall Mount Enclosure. Securely holds your Sharps Container and has viewing windows. The Sharps has a flip-up indicator that lets you know when the Sharps is full and ready to be replaced, minimizing the potential for overfilling. There are two sizes of enclosures; the small enclosure holds a 5 quart Sharps and measures 11.75"H x 5.5"D x 13"W. The large enclosure holds a 12 qt. Sharps and measures 17.5"H x 6.5"D x 14.5"W. All cabinets are conveniently keyed alike and constructed of sturdy ABS plastic; two keys included.

- 310019 Large 12 Qt. Sharps Enclosure
- 310027 Small 5 Qt. Sharps Enclosure (Includes Container)
- 310035 12 Quart Sharps Container
- 310043 5 Quart Sharps Container
- 310051 Optional Glove Dispenser

**INFECTIOUS WASTE HAMPER & BAG SET**  
 Durable chrome plated hamper with foot-pedal operated lid will collect all of your infectious waste materials. Features a vinyl pouch for bag storage and soft rubber casters (two of them locking).

- 517105 Hamper set with 20 bags
- 517089 Replacement bags 20/pk

**1 QT. SHARPS & STEEL WALL BRACKET**
