

CEMETERY FLOWER VASE AND CASING SETS

Utilitarian and economical as well as artfully crafted and attractively durable. Quality materials provide a lifetime of use and carefree maintenance. Easy initial installation and subsequent use! Outer casings slip into a ground coring and the vases reverse into the casings when not in use. When in use, the vases sit in the casings at various levels depending on the model design. Use levels are ground-level, half-level and full-level.

VASE HEIGHT ABOVE GROUND

GRECIAN SERIES

Raised-foot, die-cast zinc vases are 4" Dia. x 8.5"H; finished on the exterior and interior; vases feature a raised wreath design on both sides. Stainless steel casings with color-matched, die-cast zinc rims are 5" Dia. x 9"H with 1" rim. Full-level; vase turn-locks into casing rim. Purchase optional guard chains separately. Heavy, die-cast zinc vases will not float when reversed in casing, even if flooded.
