

PORTABLE COMMITTAL SYSTEM

Lightweight, portable and rigid construction provide both convenience and dependability. The entire system transports in two durable carrying cases making it a perfect fit in the trunk or cargo area. Implementing a retractable leg design similar to a folding table, it is easy for one person to set up and take down in just a few minutes; no tools required!

SYSTEM SPECIFICATIONS:

ONE BASE:

Constructed of 6063 grade square aluminum tubing using TIG welding; retractable and locking elbow braces are reinforced for complete safety and durability.

COVER DRAPE:

Hand and machine sewn from deep-pile Hyluster acrylic fabric or crushed velvet and available in three attractive colors. Drape completely covers the base unit without the use of rods, hooks or other cumbersome attachments. Colorfast, washable and can be machine embroidered with your company's name in white upper or lower case letters in either block or script styles.

TWO STORAGE BAGS:

One bag stores and transports the retracted base and platform; the other is for the cover drape. Both bags are constructed of heavy cotton duck material with machine lock-stitch seams and trimming; convenient loop handles on bag for base and platform; white nylon drawstring on bag for drape cover.

ASSEMBLED DIMENSIONS & TRANSPORT WEIGHT:

37"L x 21" D x 34"H; transport weight of both bags is 38 pounds.

Storage/Transport Cases

A. PORTABLE COMMITTAL SYSTEM 14 day delivery.

526864 With Hyluster Drape

308147 With Crushed Velvet Drape

B. DRAPE ONLY

Specify color and fabric.
