

PLASTO-ELASTIC UNDERGARMENTS

An absolute necessity in any preparation room; garments provide safety, cleanliness and dignity. Electronically sealed seams provide a moisture proof barrier to body fluids, purge, embalming chemicals, etc. Constructed from 5 mil taffeta-embossed opaque white or translucent vinyl; material remains flexible and will not crack, peel or deteriorate. Elastic banding at neck, wrist, waist, legs and ankles; unionalls and shirt jacket have elastic tie-strings and plastic zippers for complete closure and secure fit. Please specify sizes and quantities when ordering. Items are packed per single size in a convenient dispenser box.
