**CREMATION CONTAINER & UNIVERSAL INTERIOR**

Our Cremation Container and Universal Interior Set is designed for the dignified placement of a body prior to cremation, whether for identification purposes or for a private gathering. Constructed of heavy-test corrugated cardboard and is strength-tested up to 500 lbs. The Interior Set is manufactured from either soft blue or soft rosetan polyester crepe and is designed to be used with any standard cremation container. The Interior Set is comprised of an interior throw, a pillow and a dignity blanket. 6'6"L x 23"W. Ships via truck.

**H. INFLATABLE BODY POSITIONERS**

Easily inflated or deflated to adjust or secure the position of a body within a cremation or burial container. All materials are disposable and can be left in the cremation or burial container. Constructed from tough poly/nylon laminate. The Adjustment Tube is necessary to inflate or deflate the inflatables. The optional Inflation Probe Assembly can attach to an air compressor to inflate the positioners (you will still need the adjustment tube).

- 356512** Viewing Kit: 10 Head & Neck Supports (12" x 11"), 10 Back & Shoulder Lifts (15" x 7") and 20 Armrests (36" x 5")
- 356545** Cremation Pillow Kit: 50 Pillows (30" x 22")
- 356598** Adjustment Tubes set/5
- 356607** Inflation Probe Assembly
