

ELECTRIC CREMATION REMAINS PROCESSORS

The A-2000 and A-2000-S Cremated Remains Processors are engineered to reduce bone fragments to fit into a standard size urn. Each drive unit is equipped with a 1.5 horsepower industrial rated motor with direct drive to the drum shaft and an on/off switch with overload protection. Two hardened swivel cutting blades pulverize bone fragments in an average time of 30 seconds or less.

A

A. A-2000 PROCESSOR

Mounted on casters for easy movement. Plugs into a standard 100 volt outlet. 16" x 16" x 38" including drum. Available in: Black, White or Greystone.
