

UTILITY CASES

Three styles, each case is constructed from 20-gauge steel with a silver hammetex finish. Handles are an integral part of body design and construction; lid has full perimeter channel gasket for complete closure and attaches with twenty-two .625" sheet metal screws. Ideal for use as a casket inner-sealer or shipping and transfer container. Individually boxed and shipped via truck. Models with full-length and half-length plexiglass lids are available upon request; models with latch closures rather than screw closures are available upon request. Shipped via truck.
