

A. HYDRAULIC EMBALMING TABLE

Ferno® Model 101-H utilizes the power and convenience of hydraulics. Tilt and height adjustments are accomplished with a hydraulic foot pedal to give quick individual settings. Ends of the table can be raised or lowered from 28.5" to 40.5" to allow preparation from either a standing or sitting position. The table top is convex to drain fluids away from the body. An extra-deep drainage channel runs the perimeter of the table to the drain located in the center of the foot-end. All four 8" ball bearing swivel wheels lock instantly with a single foot pedal. Finished to ensure easy maintenance durability. Shipped via truck.

- Overall Length:**..... 80"
- Overall Width:**..... 30"
- Maximum Height:** 40.5"
- Minimum Height:**..... 28.5"
- Wheel Base:** 24.5"W x 48.5"L
- Shipping Weight:**..... 150 lbs.
- Maximum Load:**..... 600 lbs

B. FOLDING EMBALMING TABLE

Ferno® Model 102 is designed for embalming, dressing, storage and transfer of bodies. It folds for convenient storage when not in use. An exclusive one-hand release easily adjusts either end of the table from 32.5" to 38.5" from the floor; ends adjust independently. Constructed of stainless steel with a convex surface, tubular aluminum frame and 6" ball-bearing swivel wheels that lock to hold table stationary. Shipped via truck.
