

A. FEATURE-RESTORER WAX

Formulated in a firm consistency for applications in restoring facial features and filling deep tissue areas due to surgery or trauma. The neutral shade allows the restorative art technician to blend the wax with pigmented cosmetics and achieve the desired color, consistency and texture effects. While firm in consistency, this wax is very malleable and easily rolled, drawn or molded. Other waxes and cosmetics can be applied over the wax to achieve the desired cosmetic effect; feathers and stipples to create a natural tissue appearance.

- 49763** 1 lb. jar
- 49735** 4 oz. can

C. LIFE-TONE TINT LIQUID SERIES

Formulated as lightly pigmented translucent liquids in three subtle shades. Primary application is to achieve a hint of superficial color without covering the underlying skin tone or texture. Dries quickly and uniformly with no gloss or artificial appearance; ideal for hands and arms. Please specify suntan, light flesh or dark flesh. 16 oz. A hazardous materials charge may apply.

50733

D. SURFACE-RESTORER WAX

Formulated in a moderately firm consistency for applications to restore a smooth, natural tissue surface over sutures, abrasions, blemishes, etc. The neutral shade allows the restorative art technician to blend the wax with pigmented cosmetics and achieve the desired color, consistency and texture effects; easily feathers into surrounding tissues without rolling or crusting; stipples to a natural pore appearance. Other cosmetics are easy to apply and manipulate over the wax as well.

- 49848** 1 lb. jar
- 49727** 2 oz. can

E. KELCO® THANATECH® WAX-RESTORER DILUTING SOLVENT.

Formulated for smoothing wax surfaces, feathering wax edges, thinning wax compounds and cleaning excess wax from tissues and instruments. 8 oz. A hazardous materials charge may apply.

49808

F. LIP-RESTORER WAX SERIES

Formulated in a moderately loose consistency for applications to restore normal, dehydrated, blemished or traumatized lips and other soft tissue areas. The four subtle shades can be used directly from the container or blended with pigmented cosmetics to achieve the desired color, consistency and texture effects; easily feathers into surrounding tissues without rolling or crusting. Other cosmetics or lip colors are easy to apply and manipulate over the wax as well. 2 oz. can; specify color choice when ordering.
